 - The latest data from [TAG Research!America] reinforces our mission here at [TAG STAC]: 94% of Americans agree it’s important that we remain a global leader in S&T. Global leadership in innovation isn’t optional, it’s essential. Learn more here💡 https://www.researchamerica.org/sd_survey/2026-january-national-survey/

S&T Investments [[GRAPHIC](#)]

- **Longform Platforms (Facebook, LinkedIn)**
 - New data from [TAG Research!America] reinforces our mission at [TAG STAC]: Bipartisan support for federal investments in science and technology is growing. Americans overwhelmingly understand that sustained investment fuels innovation, strengthens our economy, and keeps the U.S. globally competitive. The results are clear: advancing the S&T enterprise is a national priority. Learn more about the findings here: https://www.researchamerica.org/sd_survey/2026-january-national-survey/
